

Murehwa Community, Zimbabwe

THE GENIUS OF ONE CONFERENCE SPARKS RECONCILIATION

In the heart of Murehwa, Zimbabwe, Pastor Munyaradzi Chivete leads the Holy Ghost Fire Church. He faced a daunting challenge: low attendance and disunity as a result of conflict between old and new congregants. “It was difficult for me to lead the church,” Pastor Chivete recalls. “Our membership was cut nearly in half.”

Then, hope came in the form of Living Water and the Genius of One Conference (GOO) in Harare. Pastor Chivete attended, seeking solutions for his struggling church. The conference was so transformative that he further immersed himself the next year as a GOO Trainer. Armed with new knowledge and a rekindled spirit, he returned to Holy Ghost Fire Church, determined to heal the church’s rift.

Introducing the concepts he learned at the GOO Conference, Pastor Chivete began with conflict resolution. Although initial conversations were difficult, Pastor Chivete guided the discussions with patience and wisdom that he gained through the Genius of One Conference.

He said, “As we went step by step, the people opened up and started discussing the conflict that had destroyed our church,” he said. “The teachings and the presence of the Holy Spirit changed everything. It’s hard to explain what really happened, but most people left the room healed, free, and forgiven.”

The impact was immediate and profound. For the first time in years, Pastor Chivete felt the love of God permeate their services. Holy Ghost Fire Church began to thrive! Within three months, membership rose and the church recovered all its former members. Unity and peace were restored.

Church leadership discusses what they learned at the Genius of One Conference.

Now, Pastor Chivete’s church is thriving and able to spread the gospel to others in the Murehwa community.
